

**Modern's Website:**

Modern's website [www.modcon.com](http://www.modcon.com) is equipped with the latest information on the precast industry. Our Product Catalog, for example, is a great technical resource - containing specifications for concrete structures.

**NPCA Certification:**

Modern's Ottsville facility received the National Precast Associations' prestigious Certified Plant Award in October. This designation recognizes that Modern operates its plants at the highest standards of production and quality control.

**Reinforced Concrete Pipe:**

Modern stocks gasketed Class III RCP in the following sizes: 15, 18, 24, 30, 36, 42 and 48 inches. For quick delivery - a week or less - call 484-548-6223.

# A Modern Celebration!

## Modern Open's House To Guests

Modern Precast Concrete invited customers, engineers, vendors and friends to share in the marvels of the precast concrete industry during the Open House of our newest, most technically advanced facility in North America. The celebration started at 10:00 a.m. and continued till 3:00 p.m. on Friday, September 14 at our Easton location.

Events at the Open House included tours of our 91,000 square foot facility. We

Our Buildings, Construction Supplies, Environmental & Wastewater and Site & Highway divisions set-up displays of their product lines. Sales representatives from each division were available to answer questions, provide information and mingle with guests. In addition, we had demonstrations and exhibits by twenty-three suppliers within the concrete industry.

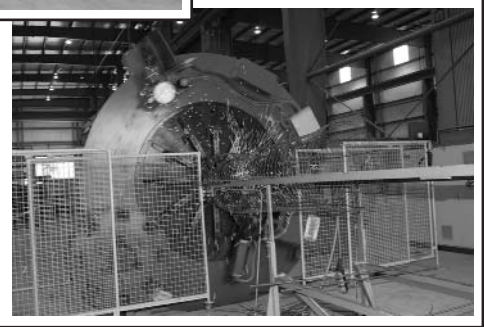

assembled sixteen tours with a total of 177 visitors walking through the plant by the end of the day. Modern's expert tour guides explained demonstra-

tions of our state-of-the-art equipment - the Schlüsselbauer Exact 2500 automated pipe production system (depicted on the second picture on the right), the Zublin cage welding machine for reinforced concrete pipe (shown on the bottom right picture), and much more.

Cookies, pretzels, popcorn, hot dogs, hamburgers, ice cream sundaes, gifts and door prizes were just some of the other treats that we had to offer. It was truly a fun-filled day.

**PROBLEM SOLUTION FEATURE:**

# Building Bridges

Modern's Solution to Bridge Replacements

## PROBLEM:

"Isn't there a quick and easy way to replace the numerous short-span bridges that have deteriorated over the years?"

## SOLUTION:

No worries! Modern Precast Concrete is on your team. Our precast concrete box culverts and Hy-Span bridge solutions meet the needs of today's fast paced construction projects. They are manufactured year round in our state-of-the-art plant and are ready for transportation to your job site. Plus, they are faster, safer and easier to install than cast in place systems.

Our experienced sales and engineering staff will work with you to meet your exact needs by providing designs, calculations, and sealed engineer drawings for all your projects.

For a free consultation, contact our Site & Highway sales team today! Call 484-548-6200.
